The committee will provide recommendations to the administration regarding plans and procedures to implement this policy and to establish procedures for identifying, analyzing, and controlling hazards, minimizing risks, and training Progeny Academy staff on safe work practices. The committee will also recommend procedures for investigating accidents and enforcement of workplace safety rules. Each recommendation shall include estimates of annual costs of implementing and maintaining that

proposed recommendation.

III. PROCEDURES

A. Based upon recommendations from the Wellness and Safety Committee and subject to the budget adopted by the Progeny Academy school board to implement or maintain these recommendations, the administration will adopt and implement written plans and procedures for identification and management of hazards or potential hazards existing within Progeny Academy in accordance with federal, state, and local laws, rules, and regulations. Written plans and procedures will be maintained, updated, and reviewed by the Administration on an annual basis. The Administration will oversee compliance with each specific plan or procedure.

To the extent that federal, state, and local laws, rules, and regulations do not exist for identification and management of hazards or potential hazards, the Wellness and Safety Committee shall evaluate other available resources and generally accepted best practice recommendations. Best practices are techniques or actions which, through experience or research, have consistently proven to lead to specific positive outcomes.
